Union of Japanese Scientists and Engineers (JUSE)

Invitation to ICQ'14-Tokyo

It is a great pleasure to host the International Conference on Quality 2014, in Tokyo, as scheduled from October 19 to 22, 2014. ICQ was first held in Japan, in 1969 sponsored by JUSE. It successfully formed an epoch in the field of quality by offering an opportunity to share information and exchange ideas among quality experts around the world. Since then, the conference has been organized every three years by the American Society for Quality (ASQ), the European Organization for Quality (EOQ), and the Union of Japanese Scientists and Engineers (JUSE) by turns. Throughout these years, Quality Management has advanced significantly across the globe, owing to the tireless and continuous efforts made, not only by the academicians, but also in various industries. A deeper cooperation between businesses and universities contributed to this attempt as well.

Looking back at the past decade, it is especially notable that more and more companies in emerging nations have started to prioritize quality, in their business management, resulting in improved competitiveness in international markets. Globalization is accelerating faster than ever. Fierce international competition continues. The time is just right for us to share what we have achieved, to clarify what we are going to pursue and to overcome challenges in front of us. Let's take advantage of this great opportunity and make another big stride forward in *Creating New Value for the World*. See you all at the International Conference on Quality 2014 in Tokyo!

Tadaaki Jagawa
President and CEO
Union of Japanese Scientists & Engineers

What is ICQ?

International Conference on Quality (ICQ), which was held, for the first time, in 1969, is one of the largest global quality events sponsored by ASQ, EOQ and JUSE every three years, with the support of IAQ. The ICQ'14-Tokyo will be the 6th ICQ in Japan, providing a rare opportunity which only comes every 9 years, where a large number of participants from growing Asia and pacific region gather to meet.

Past ICQ Site at a glance:

1969	Tokyo, Japan	1972	Washington D.C., U.S.A.	1975	Venice, Italy
1978	Tokyo, Japan	1981	San Francisco, U.S.A.	1984	Brighton, U.K.
1987	Tokyo, Japan	1990	San Francisco, U.S.A.	1993	Helsinki, Finland
1996	Yokohama, Japan	1999	Anaheim, U.S.A.	2002	Harrogate, U.K.
2005	Tokyo, Japan	2008	Houston, U.S.A.	2011	Budapest, Hungary
